For Immediate Release

June 18, 2012

MeetingOne® Now Supports the latest version of Adobe's Enterprise Web Conferencing Solution, Adobe Connect 9

DENVER, CO – MeetingOne® is pleased to announce our support of the latest version of Adobe's Enterprise Web Conferencing Solution, Adobe® Connect™ 9.

Adobe Connect is a web conferencing solution for web meetings, eLearning, and webinars. It powers mission critical web conferencing solutions end-to-end, on virtually any device, and enables organizations from leading corporations to the U.S. Department of Defense to fundamentally improve productivity.

Use Adobe Connect For:

- **Web Meetings** - Significantly improve collaboration within your enterprise
- **eLearning** - Rapidly create and deliver high impact online training
- **Webinars** - Deliver rich, engaging, and effective online events

Key New Features in Adobe Connect 9:

- Greatly enhanced event registration tools (fully customizable event microsites, landing pages, and emails; template-based email triggers; events catalog)
- Engagement dashboard to monitor participant engagement in real time
- Campaign tracking
- Qualified lead scoring
- Increased event capacity of up to 1,500 participants
- Privacy and content controls in recordings
- Pause and resume recordings during live sessions
- Customizable recording indexes
- Advanced hosting and collaboration capabilities with Adobe Connect Mobile 2.0
- Deep integration with the Adobe Digital Marketing Suite, including Adobe CQ web content management software and Adobe SiteCatalyst® online analytics software
- SCORM compatibility and reporting improvements for eLearning

MeetingOne is the leading edge Audio Conferencing partner of the Adobe Connect web meeting technology. As such, MeetingOne offers a list of exclusive audio features that integrate with Adobe Connect 9.

Exclusive and Advanced MeetingOne integrated Audio Features in Adobe Connect 9:

- Lecture/Mute All Webinar Mode - Lecture mode mutes all current participants and any newcomers except for the host. This is ideal for webinar type situations. Hosts or presenters can un-mute participants through the connect conference controls to give them the floor at any time
- Token ID that allows for a merge of your MeetingOne telephony and Adobe Connect presence for incoming callers in the attendee list pod
- High-quality synced-up recordings
- Up to 20 Breakout Rooms integration (Sub-Conference Rooms with Audio)
- Local dial in access numbers displayed in your Adobe Connect room that allows you to save on international dial out calls
- SIP UV available for on premise clients
- Advanced Visual management of your audio conferences with Click & Meet

For further details on the top new and enhanced features and benefits of Adobe Connect 9, please contact a MeetingOne Conference Specialist at 866-523-9194 or sales@meetingone.com.
