

## How to Customize Your Adobe Connect Account

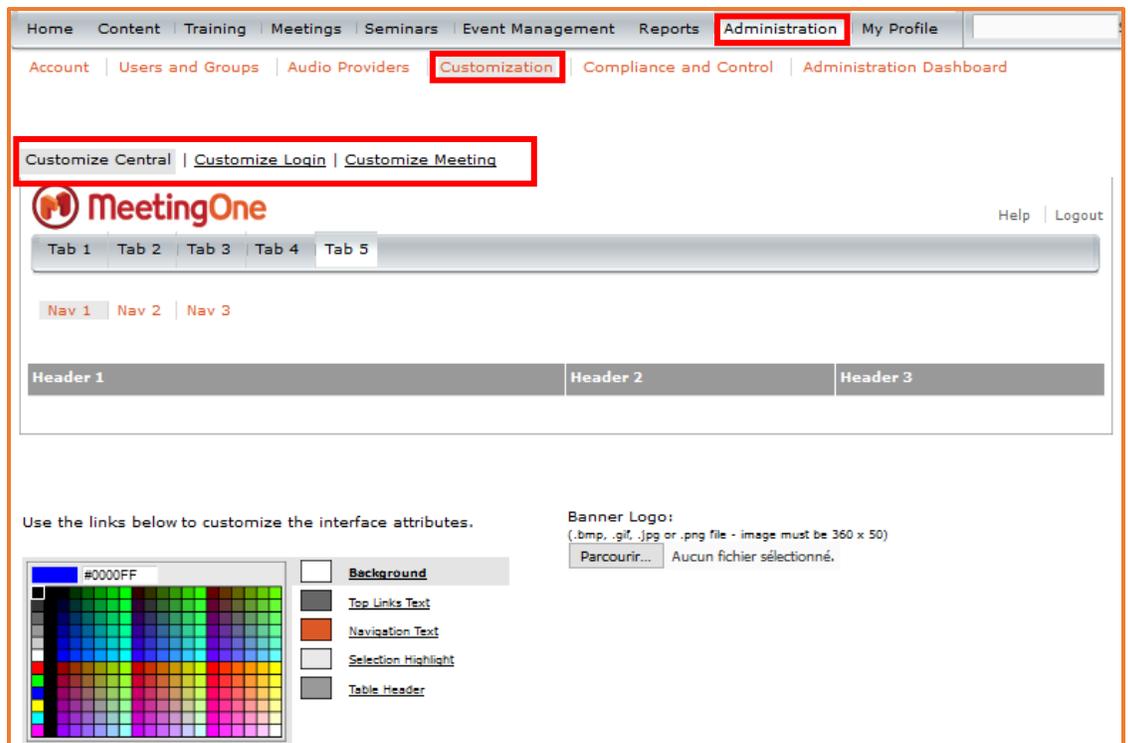

### What you will need:

- Company's Adobe Connect URL
- Administrator Credentials for Adobe Connect

Adobe Connect can be customized or branded with your company logo and colors.

1. Log into your Adobe Connect URL (i.e. *CompanyABC123.adobeconnect.com*)
2. Click **Customization**.
3. You will default to **Customize Central**, but have two additional options: Customize Login and Customize Meeting.

Any changes you make here will affect your entire account.

The screenshot shows the Adobe Connect Administration interface. The top navigation bar includes: Home, Content, Training, Meetings, Seminars, Event Management, Reports, Administration (highlighted), and My Profile. Below this, a sub-navigation bar includes: Account, Users and Groups, Audio Providers, Customization (highlighted), Compliance and Control, and Administration Dashboard. A secondary sub-navigation bar includes: Customize Central (highlighted), Customize Login, and Customize Meeting. The main content area displays the MeetingOne logo, a Help | Logout link, and a series of tabs (Tab 1 to Tab 5) and navigation links (Nav 1 to Nav 3). Below the navigation, there are three header sections labeled Header 1, Header 2, and Header 3. At the bottom, there is a section for customizing interface attributes, including a color palette and a list of attributes: Background, Top Links Text, Navigation Text, Selection Highlight, and Table Header. To the right, there is a section for the Banner Logo, with a note that the image must be 360 x 50 pixels and a button to upload a file.

Adobe has detailed, online information on each of these customization options:
