

MeetingOne

## AudioOne Conferencing

Featuring Adobe® Acrobat® Connect Pro Integration

### Seamless Conferencing

MeetingOne® has partnered with Adobe to create a seamless integration solution that delivers premium web and audio conferencing for your collaboration needs. MeetingOne's AudioOne and Adobe® Acrobat® Connect Pro provide everything you need for a simple staff meeting or a worldwide online event.

### Full Meeting Management Power

AudioOne and Connect Pro provide a powerful and intuitive user interface that brings your conferencing to a whole new level. By integrated your audio and web conferencing into one solution, it's easier than ever to control your online meetings and events.

- > **On-demand or scheduled meetings.** The choice is yours. The rooms are always open and always available.
- > **Archived meetings.** What did the presenter say? What were they looking at? It's all recorded in a single, synchronized resource with a simple point and click.
- > **Controlled audience experience.** The intuitive interface lets you design and layout the presentation area, control various web and audio resources, and employ notes and chat; it's all under your control.
- > **Reduced meeting costs.** Audio gets billed per minute at a specially negotiated rate for Connect Pro customers. You only pay for what you use.

### Key Features

- > Dial-out (host and participants)
- > Record the meeting (host only)
- > Start breakout rooms (host only)
- > Easily identify active speaker (host and participants)
- > Mute and unmute (host and participants)
- > Put participants on hold (host only)
