**For Immediate Release**  
October 10, 2008

## **MeetingOne® Announces AudioOne Integration with Adobe® Acrobat® Connect® Professional**

**Denver, CO:** MeetingOne® has partnered with Adobe to create a seamless integration solution that delivers premium web and audio conferencing for your collaboration needs. MeetingOne's AudioOne and Adobe® Acrobat® Connect Pro provide everything you need for a simple staff meeting or a worldwide online event.

AudioOne and Connect Pro provide a powerful and intuitive user interface that brings your conferencing to a whole new level. By integrating your audio and web conferencing into one solution, it's easier than ever to control your online meetings and events.

### **Notable Features Include:**

- Simplified Recorded resources
- Archived Meetings
- Persistent meeting rooms
- Expandable audio connections
- Controlled audio experience
- Dial-out (host and participants)
- Breakout rooms
- Easily identify active speaker (host and participants)
- Mute and un-mute (host and participants)
- Put participants on hold (host only)
- Instantly downloadable recordings
- Branded custom audio services available

MeetingOne is a full service virtual meeting and event solution provider. MeetingOne is headquartered in Denver, Colorado and has operations in Europe. Since 1999, MeetingOne has been a one-stop source for virtual events through its easy-to-use audio, web, and event conferencing technologies.

To learn more about MeetingOne and this partnership, please contact Katie Vidic at 303-244-0021.
