**For Immediate Release**

June 22, 2009

**MeetingOne® Announces New AudioOne Gateway Connect Adaptor  
for Complete Audio Control for Adobe® Connect® Pro users**

**Denver, CO:** MeetingOne® an Adobe Connect Gold Partner has enhanced their seamless integration with Connect by offering exclusive new features with the introduction of the AudioOne Gateway Connect Adaptor. MeetingOne's AudioOne and Adobe® Acrobat® Connect Pro provide everything you need for a simple staff meeting or a worldwide online event.

AudioOne and Connect Pro provide a powerful and intuitive user interface that brings your conferencing to a whole new level. These new features allow you to combine and manage your audio and web conferencing into one fully integrated solution.

**Exclusive Features of the AudioOne Gateway Connect Adaptor:**

- Audio is synched with break-out rooms
- The Token ID allows for a merge of your MeetingOne telephony and Connect Pro presence for incoming callers in the attendee list pod
- Ability to mute all participants and incoming attendees in your Connect Pro and Audio rooms
- Save on international dial-out costs by using local access numbers that are displayed in your Connect Pro room

MeetingOne is a full service virtual meeting and event solution provider. MeetingOne is headquartered in Denver, Colorado and has operations in Europe. Since 1999, MeetingOne has been a one-stop source for virtual events through its easy-to-use audio, web, and event conferencing technologies.
