

AudioOne

## AudioOne Gateway Connect Adaptor

Complete Audio Control for Connect™ users

### Control of your Audio from within your Connect Room

MeetingOne is an Adobe Gold Solution Partner who offers a comprehensive suite of audio and web conferencing solutions around Adobe® Connect™ including seamless integration with Connect using the MeetingOne Telephony adaptor.

### Exclusive Features of the Gateway Connect Telephony Adaptor

- > Audio is synched with break-out rooms
- > The *Token ID* allows for a merge of your MeetingOne telephony and Connect presence for incoming callers in the attendee list pod
- > Ability to mute all participants and incoming attendees in your Connect and Audio rooms
- > Save on international dial-out costs by using local access numbers that are displayed in your Connect room

MeetingOne's integration of Adobe® Connect™ with AudioOne provides everything you need for a simple staff meeting or a worldwide online event.
