

TOOLS AND ACTIVITIES FOR YOUR LIVESTREAM

With Voila you always have many tools and activities available to enhance your livestream and to facilitate more engagement from your participants.

EMOJIS

Participants can react using emojis.

CHAT

Participants can send messages, answer and react.

QUESTIONS

Participants can ask questions, and they can "like" other participants' questions.

VIDEO QUESTION*

Participants can ask a question and then briefly appear on video to interact with the speaker(s).

*This activity is available only with the studio pro session

WORDCLOUD

Participants can submit and/or like words. Their size changes according to the number of likes.

PHOTOWALL

Participants can submit photos taken with their cameras.

FLAG

Participants can add their flag to a shared map to show where they are participating from.

POLL

You can invite participants to participate in a poll, and everyone will see the results live.

QUIZ

Participants can answer a multiple question quiz and see the results. The organizer can choose to display the winners' rankings at the end.

3D MODEL

Participants can move the 3D model in the screen.

TOOLS AND ACTIVITIES FOR YOUR LIVESTREAM

More tools:

Redirect: You can have your participants click on a thumbnail to be redirected to another session or a website of your choosing.

Satisfaction Survey: Invite participants to take a satisfaction survey and add a comment at the end.

Click to call: The organizer can post a phone number for participants to call.

Product: The organizer can present a product for participants to order.

Form: The organizer can display a personalized form to collect information from participants.

Link: Provide a link to a website.

Site integration: The organizer can integrate a website (if the website allows for integration) to allow the participant to browse the site without leaving the live feed.
