

Integrated Audio Setup

What you will need:

- Company's Adobe Connect URL
- Administrator Credentials for Adobe Connect

Steps:

- 1) Log into your Adobe Connect URL (i.e. CompanyABC123.adobeconnect.com)
- 2) Click **Administration**
 - i. Click **Audio Providers**
 - ii. Click **MeetingOne NA**
 - iii. Click **Edit**
 - iv. Select **Enabled** from the Provider Status drop down
 - v. Click **Save**
 - a. Click **Account**
 - i. Click **More Settings**
 - ii. Under **UV Enablement for Integrated Telephony Providers** - Verify that **MeetingOne NA** is set to **Enabled** (if not, choose Enabled and then Save)
- 3) Each Host (license holder) will now need to create their own Audio Profile (See Audio Profile Setup)

The screenshot displays the Adobe Connect Administration interface. The top navigation bar includes 'Home', 'Content', 'Training', 'Meetings', 'Seminars', 'Event Management', 'Reports', 'Administration', and 'My Profile'. The 'Administration' menu is expanded, showing 'Account', 'Users and Groups', 'Audio Providers', 'Customization', 'Service Plan', 'Compliance and Control', and 'Administration Dashboard'. The 'Audio Providers' section is active, showing a table of providers:

Provider	Provider Status	Provider Type
InterCall	Disabled	Integrated Telephony Adapter
PGI EMEA	Disabled	Integrated Telephony Adapter
PGI NA	Disabled	Integrated Telephony Adapter
MeetingOne NA	Disabled	Integrated Telephony Adapter
Arkadin	Disabled	Integrated Telephony Adapter

The 'MeetingOne NA' row is highlighted. To the right, the 'Provider Information' form is visible, with fields for 'Provider Name', 'Provider Status', and 'Provider Type'. The 'Provider Status' field is set to 'Disabled'. Below this, the 'Security Settings' section is shown, with the 'More Settings' link highlighted. Under 'UV Enablement for Integrated Telephony Providers', the 'MeetingOne NA' provider is listed with 'UV Capability' set to 'Enabled'.
